Jiangnan University
BE - Industrial Design

Experience

- 06/2018 - Now Uber, Product Designer**
- Design for Platformization, Customer Identity (CIAM), Maps.
- 08/2017-12/2017 Georgia Tech, Graduate Teaching Assistant**
- Assist in teaching CS8803 Mobile Application and Services digital product development, especially design and the UCD process.
- 05/2017-08/2017 Uber, Product design intern**
- Worked in R2D(Rider to Driver) team to help improve the signup channel for riders to become drivers.
- Designed concepts for driver profile, R2D signup flow, and R2D OneUber to enhance discoverability and accessibility of Uber products.

Projects

- 06/2018 - Now Standard Signup**
- I led the design of Standard Signup up. We are looking at building a unified account creation experience across all our products at Uber.
- One Account**
- I led the design of One Account. One Account will be the unified Customer Identity and Access Management system (CIAM) for Uber.
- Maps routing diagnostics**
- I led the design of new features and data visualization on Maps routing diagnostics.
- 05/2017 - 08/2017 R2D One Uber, Product designer**
- I led the design of R2D OneUber, to help users discover new Uber products and easily connect between the ones they already use.
- 01/2017 - present Momentä - The fitness app, Design and research lead**
- Momentä is "the fitness app" for reaching your fitness goals, with the focus of providing users with infinite motivation to work out.
- The 1st version of the app features gym buddy matchmaking, and running tracking.
